About the Artists:

These artists have been invited to participate in a ‘real gallery opening night’ with pomp and circumstance. These 20 young people have been selected by an artist, an art teacher or gallery owner. We provide the venue with ceremony and feeling of accomplishment for their budding art careers.

Art is fresh air, the beauty to provide inspiration, the hope that the world needs. Art is the reflection of the soul, the spirit, the better world. By celebrating these 20, we tell them that art is worth investing their talent and inspiration.
